Lumiron's RGBW LED Tape light is a flexible modular linear lighting system that comes either for indoor and outdoor, fun, innovative, highly functional, dimmable, versatile color changing with the option of having a clean white added to this dynamic tape. Our RGBW Lumirtape gives you the option of a white: 2700k, 4000k or 7000k and the luxury of RGB added. It's very simple to install adding life to any indoor application that needs extra fun, flexibility and color-enhancing mood lighting or as strong accent lighting that moves to the beat or slowly fades from one color to another. This is an architect's lighting dream because you can create various moods with the touch of a button. Our RGBW Lumirtape allows you to install in the most discreet locations with minimum effort. Lumiron offers you the opportunity to purchase by roll of 16.25 feet (meter) or custom - cut to exact measurements, ready to install with the right power supply, controllers, dimmers and accessories. Applications: Entertainment Areas, Bar lighting, Soffit Lighting, Showcase and Display Lighting, Accent and Contour Lighting, Signage, Architectural Backlighting, Music room Lighting, Pool Accent Lighting, Children and Family rooms . Lumiron's RGBW LUMIRTAPE is commercial grade that can be applied to most surface with double sided 3-M Tape. RGBW Lumirtape is 12VDC, using minimum electricity and lasts over 50,000 Hours. The low energy consumption does not only save money, but is safe and friendly to the environment. Your imagination will lead you to your Lighting creations....
